

# ANTIOX, BEAUTY FROM INSIDE

June 28, 2018

During the summer months we often mistreat our body, subjecting it to high temperatures, which causes our skin to dry out or age, we may have discomfort in the eyes due to UVA rays or we may feel swollen after the excesses of the holidays.

For all these problems there is a solution. Today we want to talk about one of our recent supplements, designed to tackle these problems: how to take care of the skin from the inside. For this, it is inevitable to talk about the healthful properties of the concentrated extract of black garlic:

1. It contains a large amount of sulfur compounds, polyphenols, amino acids, vitamins, minerals and trace elements that favor the health of hair, skin and nails.
2. Increase the natural defense of our skin.
3. It promotes the formation of elastin and collagen, which contributes to fight flaccidity and improve the firmness and elasticity of our skin.
4. Deeply detoxifies the liver and blood that nourishes and moisturizes the skin and all our tissues.
5. It helps to improve blood circulation, preventing spider veins or varicose veins, dry and dull skin and fragile and brittle nails and hair. The result is a clear improvement in the appearance and health of our skin, hair and nails.

To take advantage of the healthy properties of this superfood, we have created Antiox, a food supplement through which you will achieve beauty from the inside. It is composed of this concentrated extract of black garlic, as well as astaxanthin. This ingredient is a natural antioxidant carotenoid that is extracted without solvents from the

microalga *Haematococcus pluvialis* and has been recognized as having the highest antioxidant capacity. In addition, it also exercises eye protection and acts against the damaging effects of sunlight.

That is why our Antiox product has a great antioxidant capacity, as well as anti-inflammatory, which helps to stop the premature aging of the skin, caused by sun exposure, tobacco smoke, chemical and electromagnetic environmental pollution, which oxidizes the skin

Therefore, we recommend you try our elixir in drops, with anti-age effect, since it also acts against the appearance of wrinkles and activates the microcirculation of the blood, being able to enjoy, as a result, a younger, smoother and luminous skin.
