

WE LAUNCH NEW LINE OF FOOD PRODUCTS!

April 24, 2018

We have managed to unite our revolutionary Ecological Black Garlic Concentrated Fluid Extract (BGCFE) with other equally potent ingredients, such as black onion, microalgae and plant essences, to enhance in this innovative range the already innumerable medicinal properties of this superfood.

With the fluid extract we take advantage of 100% of the benefits of black garlic, concentrating its nutrients between 2 and 10 times more than in other formats, such as fresh bulb or capsules. In this way, we maximize its positive effects for body and mind and take advantage of its efficiency to create the best range of food supplements in the market.

Our six new references are 100% natural and vegan, each of them indicated for different uses and profiles, given the great versatility of black garlic:

- **Depur:** neutralizes and eliminates internal and external toxins, improves general well-being and aids in the hepatic, pulmonary, biliary and renal clearance. It is created with milk thistle, nettle, black radish and dandelion.
- **Calm:** works on the nervous system for the well-being and physical and mental relaxation, maintaining good emotional balance and improving the response to stress. In

addition, it acts on the digestive system and other organs related to symptoms of nervous origin, such as lungs, heart or kidneys. It also provides a high content of antioxidants and promotes oxygenation and brain irrigation. It is made with St. John's wort, lemon balm, basil and lemon.

- **Circul:** adequate to improve the cardio-circulatory system and help the normal functioning of the cardiovascular system. It is composed of black onion.
- **Immuno-allerg:** the perfect ally for the immune system, cases of allergies and food intolerances. It is developed with concentrated oily extract of Spirulina.
- **Digest-detox:** helps to improve digestive ailments, such as slow and heavy digestion and abdominal swelling, detoxifies and has a great power as chelator of heavy metals and other toxins, so it is indicated for the digestive system. Contains concentrated oily extract of Chlorella.
- **Antiox:** indicated for athletes, due to its antioxidant potency, which helps before and after exercise. It is composed of concentrated oily extract of Astaxanthin.

You can consult the full range, of sale in pharmacies and parapharmacies, on our [website](#).

Also, do not miss our new [bio-cosmetics line](#), our repair serum antiaging and day cream antiaging are waiting for you!

And this has not done anything else to start, because our R & D laboratory in Toledo does not stop researching to create new formulas and natural remedies.
